CASE MANAGEMENT MEMORANDUM FOR THE OTAGO REGIONAL COUNCIL

To The Registrar
Environment Court
Christchurch

And to: Each Appellant and s 274 party on the non-freshwater planning instrument parts of the Proposed Otago Regional Policy Statement 2021

Introduction

- 1 The Otago Regional Council (“the ORC”) files this case management memorandum in accordance with Her Honour’s Directions contained in the Minute of the Environment Court dated 20 May 2024.
- 2 19 Appeals have been received on the non-freshwater parts of the proposed Otago Regional Policy Statement 2021 (“pORPS”) and numerous interested parties have lodged section 274 notices.
- 3 The ORC has attempted to consult with all parties involved in the appeals as part of preparing this memorandum. The ORC circulated a draft version of this memorandum together with the relevant Appendices on 5 July and provided a one-week period for feedback.

Feedback received

- 4 At the time of filing this memorandum, ORC has received feedback from:
 - 4.1 Meridian Energy Limited
 - 4.2 Federated Farmers of New Zealand
 - 4.3 Environmental Defence Society Incorporated
 - 4.4 Transpower New Zealand
 - 4.5 Oceana Gold New Zealand Limited
 - 4.6 Queenstown Lakes District Council
 - 4.7 Queenstown Airport
 - 4.8 Waterfall Park Developments Limited
 - 4.9 Ara Poutama Department of Corrections
 - 4.10 Manawa Energy

- 4.11 The Fuel Companies
 - 4.12 Chorus New Zealand Limited, One New Zealand Group Limited and Spark New Zealand Trading Limited
 - 4.13 Aurora, Powernet and Network Waitaki
 - 4.14 Falls Dam
 - 4.15 Forestry Appellants
 - 4.16 Maniototo Irrigation Company Limited
 - 4.17 Manuherehia Catchment Group
 - 4.18 Otago Water Resource Users Group
 - 4.19 Waitaki Irrigators Collective
- 5 The feedback received included parties requesting amendments to Appendix B where they had been omitted or included as an interested party to a provision under appeal in error. Those amendments have been made.
- 6 Where change has been sought by parties to the proposed mediation groupings and order circulated on 5 July, that correspondence is attached as Appendix D.

Identification of any preliminary issues

Late notices

- 7 There were a number of late section 274 notices lodged.
- 8 Late parties were required to apply to the Court for waivers pursuant to section 281 of the Resource Management Act 1991.
- 9 ORC did not oppose any waiver nor take issue with any of the late notices received.

Scope

- 10 An issue has been raised as to whether the Glenpanel Limited Partnership's (ENV-2024-CHC-31) appeal is within scope.
- 11 If this issue is not resolved at mediation, then one or more parties may subsequently seek directions for its resolution as a preliminary legal issue. The ORC proposes that leave is reserved to allow any party to do so.

High Court Appeals

- 12 There are currently five appeals before the High Court on points of law on the freshwater provisions of the pORPS. It is intended that those appeals will be mediated in August 2024. There will then be a further case management conference on 2 October 2024.
- 13 Some points on appeal to the High Court appear capable of early resolution, but which if any appeal points will be resolved by mediation is presently unknown.
- 14 Also unknown is when the High Court appeals will be heard and decided.
- 15 The appeals to the High Court deal only with freshwater provisions of the pORPS. The appeals to the Environment Court deal only with non-freshwater provisions of the pORPS.
- 16 Environment Court mediations on non-freshwater provisions should not be deferred and/or groups be reordered because of the High Court appeals on freshwater provisions. Any potentially affected provisions should properly be identified and considered during the mediation of the relevant Environment Court mediation group.

Report on the information uploaded to the Appeals Website.

- 17 The Appeals Webpage is at: <https://www.orc.govt.nz/your-council/plans-and-strategies/otago-regional-policy-statements/otago-regional-policy-statement-2021/appeals-porps-2021/environment-court-appeals/>
- 18 ORC has uploaded the following to the Appeals Webpage:
 - 18.1 Notices of Appeals and supporting documents; and
 - 18.2 Section 274 Notices; and
 - 18.3 Applications for waiver of time; and
 - 18.4 Waiver Decisions; and
 - 18.5 Memoranda of Counsel; and
 - 18.6 Court Minute; and
 - 18.7 Public notices.

19 ORC continues to maintain and update the Appeals Webpage.

Annotated pORPS

20 The ORC has prepared an annotated version of the pORPS 21 (“Annotated pORPS”) showing the provisions that are subject to appeal. The Annotated pORPS is available on the Appeals Webpage¹.

Identification of topics appealed and which appeals relate to each topic

21 Attached as Appendix A is a table identifying all non-freshwater provisions under appeal, together with the relevant appellants and section 274 parties (“Appeals Table”).

22 The Appeals Table will be available on the Appeals Website once finalised.

23 The ORC will continuously update the Appeals Table (including to reflect changes sought by parties today, not all of which have yet been incorporated).

Appropriateness to hear certain appeals separately or group appeals together by topics for mediation and/or hearings.

24 The appeals will mostly be grouped by chapter topics for mediation.

25 The requirements of the National Planning Standards 2019 mean the pORPS is structured from the general to the specific and lends itself well to this approach.

26 In response to feedback received by the parties, the EIT – Energy, infrastructure and transport chapter group will be the first of the domain and topic groups to be mediated. This group will also now include two significant resource management issues.

27 For the purposes of case management and mediation, ORC has grouped appeals on definitions, Part 1 – Introduction and General Provisions, Par 4 – Evaluation and Monitoring and Part 5 – Appendices and Maps into the topic chapters relevant to the particular definition or matter at issue.

28 Appendix B is a list of the proposed topic (chapters) and subtopic (specific provisions) groups for all appellants and section 274 parties.

29 The topic and subtopic allocations in Appendix B are based on the matters raised in the appeals and section 274 notices. The ORC does not make any

¹ Note: The Annotated pORPS includes both freshwater and non-freshwater provisions. The freshwater provisions are shaded blue.

representation in this memorandum about whether any party has standing or whether the relief sought is within scope of the relevant submissions or further submissions.

Sequencing of appeals (or groups of appeals) is appropriate

- 30 Appendix C sets out the ORC's proposed sequencing and suggested timeframes for Court-assisted mediation.
- 31 It is suggested that an additional week be allocated at the end of the mediation to allow for any overflow on any of these topics. The overflow week will also provide an opportunity to review how any proposed amendments to the pORPS work as an integrated whole.
- 32 In terms of the mediation process itself, ORC considers that in advance of mediation, parties should prepare and exchange position papers.

Advise whether mediation could usefully be addressed by topics and, if so, propose some potential dates for mediation on each topic.

- 33 ORC is available to mediate appeals from September 2024 and suggests the groupings are mediated on a week on, week off basis.

Proposed Directions

- 34 The ORC respectfully seeks the following directions:
 - 34.1 the appeals and section 274 parties be grouped into the topics and subtopics set out in Appendix B; and
 - 34.2 that Court-assisted mediation on the appeal topics commence in September 2024, and be sequenced in accordance with Appendix C, noting that all mediation dates are at the Court's discretion and exact dates will be scheduled closer to the time.
 - 34.3 that leave be reserved for any party to seek directions with respect to the scope of Glenpanel Limited Partnership's appeal.

35 A copy of this memorandum will be uploaded to the Appeals Webpage and be served on all appellants and section 274 parties.

S J Anderson / T M Sefton
Counsel for the Otago Regional Council

Date: 12 July 2024

Appendix A

pORPS 2021– Environment Court appeals

Version dated 12 July 2024

Notes:

1. The tables below are based on an initial analysis of appeals received, and there may be changes following further in-depth analysis.
2. Section 274 parties for each appealed provision have been identified based on their s274 notices. Positions of interested parties may be refined during the mediation process.
3. Scope issues will be addressed during mediation.

The table below shows collective names where these are used in the tables below.

Subject: RE: Environment Court Appeals on the Non-freshwater parts of the Proposed Otago Regional Policy Statement 2021

Dear Thea and parties,

Thank you for preparing the below sequencing and timeframes for mediation.

Galloway Cook Allan acts for the following parties:

- Aurora, Powernet and Network Waitaki (**EDBs**)
- Falls Dam
- Forestry Appellants
- Maniototo Irrigation Company Limited
- Manuherehia Catchment Group
- Otago Water Resource Users Group (**OWRUG**)
- Waitaki Irrigators Collective

The proposed grouping risks many parties being involved in practically all of the weeks of mediation which would not be cost or time efficient. Our understanding of the Court's direction on grouping was to recommend an approach to grouping appeal topics, i.e. by theme. Although the appeals relate to each section of the Policy Statement, the themes raised do not necessarily lend themselves to following the same approach. We saw that with some parties seeking to address multiple sections of the RPS through their presentation to the hearing panel. A good example is the various infrastructure appeals raise similar themes (providing for and protecting infrastructure) but reach across most sections of the plan. It would seem prudent to have a topic which addresses the themes raised by those appeals which touches on provisions from other topics.

We think the proposed grouping can be improved as follows:

1. The extant High Court appeals will make coming to any conclusion on Groups 2-4 rather difficult. We recommend parking those groups until there is an outcome of the High Court proceeding. With luck that will be following the ADR process in August.
2. We do think that the definitions need to be dealt with first. The definition of Regionally Significant Infrastructure (**RSI**) should be addressed early because what is captured by this definition necessarily informs the relevance (or not) of the provisions that rely on it. As a general proposition dealing with definitions as a topic might have merit. Once those are settled the parties can then turn their mind to applying them in the relevant provisions. We think that it would be appropriate to deal with Group 1/Mana

whenua issues at the same time as (or immediately after) the definitions. The definition of 'Māori land', 'Mana Whenua' and 'Papakāika' will necessarily be dealt with before diving more deeply into those issues.

3. We acknowledge there are several discrete topics that could be addressed early on and which are not dependent on the High Court proceedings, i.e. Air, Coast, Natural Hazards.
4. The EIT Chapter and the relief sought by most (if not all) of the Infrastructure Appellants spreads across various infrastructure related provisions across a number of topics. For example:
 - a. SRMR – SRMR10A and relief sought to add a new Infrastructure related SRMR should be addressed with the EIT topic.
 - b. UFD – this chapter sits well with EIT as it pertains to enabling and protecting infrastructure in urban environments. It could be addressed alongside EIT.
 - c. Many RSI parties have sought bespoke policy/consent pathways through areas such as ECO, CE, NFL. Addressing those issues could lead to a significant narrowing of interest in those discrete topics.

We are mindful that ORC is directed to lodge and serve the memorandum tomorrow. We are therefore happy to support an extension to the lodgement date to consider the above.

Subject: RE: Environment Court Appeals on the Non-freshwater parts of the Proposed Otago Regional Policy Statement 2021

Thanks Gus.

Thea, I can confirm that Transpower supports Gallaway Cook Allan's proposal of grouping the 'infrastructure issues' into one mediation as far as is practicable, and would be happy to assist in exploring how that would work, if necessary. Transpower particularly supports having the appeals on the SRMR that relate to infrastructure (including Transpower's), incorporated into the infrastructure topic.

Our assessment of the current proposed grouping could well result in Transpower attending all but 1.5 weeks of the suggested timeframes for mediation included in Appendix C, despite Transpower's appeal being focused only on the National Grid. Having the Infrastructure mediation prior to the Group 6. Coast and Group 7. Ecosystems and indigenous biodiversity mediations, is another way that may allow the infrastructure providers to hopefully be able to narrow their interests, sooner in the mediation process rather than later.

Ngā mihi

Tēnā koe Thea,

Meridian Energy Limited also supports grouping the 'infrastructure issues' into one mediation as far as is practicable, and scheduling that mediation prior to the Group 6: Coast and Group 7: Ecosystems and indigenous biodiversity mediations.

To progress this, we would support an extension to the case management memorandum filing date.

Regional Policy Statement 2021

Tēnā koe Thea

On behalf of the Fuel Companies, I have assessed the memorandum and advise that there have been 3 omissions in Appendix B as follows - the Fuel Companies are s274 parties to the following:

- S274 to EDS appeal: The proposed amendment to PORPS-NF definition: commercial port activity. (opposed)
- S274 to Forest and Bird: The proposed amendment to PORPS-NF definition: “commercial port activity” (opposed)
- S274 to Forest and Bird: The proposed amendment to PORPS-NF definition: “regionally significant infrastructure” to delate clause 11A “oil terminals, bulk fuel storage and supply infrastructure, and ancillary pipelines at Port Chalmers and Dunedin”. (opposed)

Otherwise, the memo correctly identifies the Fuel Companies appeal points and all other s274 matters.

On behalf of the Fuel Companies, I also support the matters raised by Gus Griffin for the parties he represents, including:

- to deal with appeals on the definitions first;
- that all infrastructure appeal points be grouped together as much as possible; and
- to support an extension to the lodgement date by ORC to the Court.

Kind regards

Gavin

Subject: RE: Environment Court Appeals on the Non-freshwater parts of the Proposed Otago Regional Policy Statement 2021

Hi

Further to Gus' email, Oceana would also support an extension of time for filing the memorandum which is due today.

In addition to infrastructure issues, there may be some other group topics which can be heard in a more integrated way. For example, given the overlap of issues around providing recognition for mining it would be more efficient for my client Oceana Gold if Group 4 (land, freshwater and soil) and Group 7 (ecosystems and indigenous biodiversity) were heard together.

Given the large number of parties on this email chain (including some out of office replies) I wonder if setting aside some time for a teams call with the parties (not the Court) might help finalise the documents? However it may be that given the large number of parties there is just no easy way to do this.

Kind regards

Dear Thea

I do want it recorded that it is our view for all the parties we represent that the specific domain topics actually need to go before IM. That is for these reasons:

1. The High Court appeals dealing with freshwater issues potentially have a substantial influence on the content IM chapter. Thus, we do not think integrated management can be addressed until we know what is to be integrated. It should go last.
2. The discrete subject issues can proceed in the meantime in so far as they do not cross over with the High Court matters. EIT is a good example.
3. It is likely that parties' concerns about higher order provisions might be less acute if the domain/sector specific issues (e.g. infrastructure, forestry) have been addressed.

Attachments: Comments on record of appeals against provisions - Appendix B [32].docx

Hi Thea

With apologies for the delay, see **attached** a table provided by Aukaha (on behalf of papatipu rūnaka and TRONT) with comments on the Council's suggested Appendix B.

Most of the issues are largely discrete to the Kāi Tahu appeal – noting that my clients have not yet had the opportunity to review the Appendices against the s 274 notices filed, and reserve their position on those. Appendices A & B should, therefore, be treated as a live document for the time being, and not a final indication of any parties' interests.

My clients also oppose the combining of UFD and EIT provisions as a grouping for mediation – as some of the points in my clients' appeal on the UFD chapter are unrelated to the issue of infrastructure (eg provision for mana whenua aspirations and use of native reserves and Māori land). Those issues could sensibly be resolved "in principle" as part of Group 1, with leave reserved to return to them if further detailed drafting is required.

Given the timing, it is unlikely to be possible for us to resolve all of the matters set out in the Aukaha table before close of play today.

To that end, we would also support a short extension to the Council's deadline for filing its reporting memorandum.

However, if Council wishes to proceed and file its memorandum this afternoon, I would ask that a copy of this email and the attachment be included in any response to the Court.

Ngā mihi / Regards

Issues with Appendix B – provisions appealed

Appellant	Provision	Problem	Suggested solution
WHOLE OF PORPS MATTERS			
Cain Whānau	General: Insert “and owners of Māori freehold land” alongside all references to “mana whenua” across the whole RPS.	This has been logged separately against every individual reference to “mana whenua”, so is logged against many provisions and appears in nearly all groups. A number of provisions, including RMIA and LF-WAI provisions and the introductory sections of the RPS, are only included in the table because of this general point. We are a s. 274 party to this but do not have a broader interest in many of the provisions tagged.	Ask for the appeal point to be included as a general point in Group 1 rather than being looked at provision-by-provision. If there are any specific implications for other appeals on provisions in other groups, an “in-principle” approach could be considered in Group 1 and then carried forward for further consideration in the other relevant groups.
Cain Whānau	Provisions in the PORPS that may directly or indirectly restrict owners of Māori land from being able to utilise their land, including: IMP-1, IMP-14, CE-01, CE-03, CE-05, CE-P4, CE-P5, CE-P6, CE-P9, CE-P10, CE-P12, CE-M2, CE-M3, CE-M4, LF-FW-P13, ECO-01- ECO-03, ECO-P1- ECO-P12, ECO-M1- ECO-M9, EIT-INF-P12- EIT-INF-P14, EIT-INF-P15, EIT-INF-P16, EIT-INF-P17, EIT-EN-M1- EIT-EN-M2, HAZ-NH-P2, HAZ-NH-P3, HAZ-NH-P7, HAZ-NH-P10, HAZ-NH-M1- HAZ-NH-M4, NFL-P1, NFL-P2, NFL-M1- NFL-M3, UFD-P4	This has been logged separately against all the individual provisions listed. We are a s. 274 party to this but do not have a broader interest in many of the provisions tagged.	Ask for the appeal point to be included in Group 1 as related to the approach on MW-P4. If there are specific implications for other appeals on provisions in other groups, an “in-principle” approach could be considered in Group 1 and then carried forward for further consideration in the other groups.
GROUP 1 – MANA WHENUA AND MĀORI LAND			
Kāi Tahu	Definition of “papakāika”	This is listed against the Cain Whānau appeal, but not ours.	Add Kāi Tahu as appellant
Kāi Tahu	Definition of “Māori land”	This is listed against the Cain Whānau appeal, but not ours.	Add Kāi Tahu as appellant
GROUP 3 – INTEGRATED MANAGEMENT			
Kāi Tahu	IM-P3	We are listed in error as an appellant on this provision.	Remove Kāi Tahu from list in “Appellants” column

GROUP 4 – LAND, FRESHWATER AND SOIL			
Kāi Tahu	UFD-O4: amend to reflect approach above.	This has been included in Group 4-Land, freshwater and soil rather than as a related provision in Group 1-Mana Whenua. (Note that there are other, unrelated, appeals on this objective.)	Ask for the Kāi Tahu appeal point to be considered “in principle” in Group 1 as related to the approach on MW-P4. This “in-principle” approach could then be carried forward for further consideration in Group 4.
GROUP 6 - COAST			
Kāi Tahu	CE policies: amend to reflect approach to use of native reserves and Māori land, and to provide for recognition of rakatirataka in managing the effects of use of the land. Logged against: CE-P1A, CE-P1, CE-P2, CE-P4, CE-P5, CE-P6, CE-P7, CE-P8, CE-P9, CE-P10, CE-P13 (and other provisions identified in row below)	This has been logged against each individual CE policy, and also against each CE objective and method (and explanation, principal reasons and AER), and included in Group 6-Coast rather than as a related provision in Group 1-Mana Whenua.	Ask for the appeal point to be included in Group 1 as related to the approach on MW-P4. If there are specific implications for other appeals on CE policies included in Group 6, an “in-principle” approach could be considered in Group 1 and then carried forward for further consideration in Group 6. Also note that the point only relates to CE policies, not CE objectives or methods. The only CE objective we have appealed is CE-O5, and we have not appealed any of the methods, the explanation, principal reasons or AER.
Kāi Tahu	CE-O1 CE-O2 CE-O3 CE-O4 CE-M1 CE-M2 CE-M3 CE-M4 CE-M5 CE-M6 CE-E1 CE-PR1 CE-AER1 CE-AER3 to AER8 CE-AER9	We are listed in error as an appellant on these provisions – probably logged in relation to our request for amendments to CE policies to reflect the approach to rakatirataka and use of native reserves/ Māori land (Group 1).	Remove Kāi Tahu from list in “Appellants” column
Kāi Tahu	Definition of “Coastal hazard”	We are listed in error as an appellant on this definition - possibly logged in relation to our	Remove Kāi Tahu from list in “Appellants” column

		Natural Hazards appeal point, but we have not appealed the definition.	
GROUP 8 – ENERGY, INFRASTRUCTURE AND TRANSPORT			
Kāi Tahu	EIT-INF-O4 EIT-INF-O5 EIT-INF-O6 EIT-INF-P10 EIT-INF-P15 EIT-INF-M6	We are listed in error as an appellant on these provisions – no clear reason for this, unless possibly logged in relation to our appeal of the definition of “Regionally significant infrastructure”?	Remove Kāi Tahu from list in “Appellants” column
Kāi Tahu	EIT-INF-P17 EIT-INF-M5	We are listed in error as an appellant on these provisions – no clear reason for this, unless the provision has been identified by ORC as relevant to our appeal on UFD-P4 re effects of urban expansion on water demand and water quality.	Remove Kāi Tahu from list in “Appellants” column or clarify why we are included.
Kāi Tahu	EIT-INF-M4 EIT-INF-E2 EIT-INF-PR2 EIT-INF-AER5 EIT-INF-AER6 EIT-INF-AER7 EIT-INF-AER8	We are listed in error as an appellant on these provisions.	Remove Kāi Tahu from list in “Appellants” column
Kāi Tahu	EIT-EN-O1 EIT-EN-O2A EIT-EN-O3 EIT-EN-P1 EIT-EN-P2 EIT-EN-P3 EIT-EN-P4 EIT-EN-P5 EIT-EN-P7 EIT-EN-P8 EIT-EN-P9 EIT-EN-P16 EIT-EN-M1 EIT-EN-M2	We are listed in error as an appellant on these provisions.	Remove Kāi Tahu from list in “Appellants” column

	EIT-EN-M3 EIT-EN-E1 EIT-EN-PR1 EIT-EN-AER1 EIT-EN-AER2 EIT-EN-AER3 EIT-EN-AER4		
Kāi Tahu	All EIT-TRAN provisions	We are listed in error as an appellant on these provisions.	Remove Kāi Tahu from list in “Appellants” column
Kāi Tahu	Definitions: - Commercial port activity - Significant electricity distribution infrastructure	We are listed generally as an appellant on the definitions listed in Group 8. However the only one we have appealed is “Regionally significant infrastructure”	Clarify that the Kāi Tahu appeal only affects the definition of “Regionally significant infrastructure”
GROUP 9 – NATURAL HAZARDS			
Kāi Tahu	HAZ-NH-P3	We are listed in error as an appellant on this policy. Our appeal point in regard to risk assessment for coastal hazards identifies HAZ-NH-P1A, HAZ-NH-P1, HAZ-NH-P2 and HAZ-NH-P10 as the specific provisions appealed.	Remove Kāi Tahu from list in “Appellants” column
GROUP 12 – URBAN FORM AND DEVELOPMENT			
Kāi Tahu	Objectives, policies and methods in the UFD chapter: amend to include outcomes relating to Kāi Tahu aspirations and values for urban development, and to reflect approach above. Logged against: UFD-O1, UFD-O3, UFD-P1, UFD-P2, UFD-P3, UFD-P5, UFD-P6, UFD-P10, UFD-M1, UFD-M2, UFD-M3	This has been logged against each individual objective, policy and method in Group 12-Urban Form and Development rather than as a related provision in Group 1-Mana Whenua.	Ask for the appeal point to be included in Group 1 as related to the approach on MW-P4. If there are specific implications for other appeals on provisions in Group 12, an “in-principle” approach could be considered in Group 1 and then carried forward for further consideration in Group 12. (Note that we do have a separate appeal point on UFD-P4, which should stay in Group 12.)
