# Errata to the evidence of Ralph Robert Henderson

## 1 Errata

- 1.1 The following points are made to correct minor errors in my evidence or clarify matters in my evidence in relation to the questions received from the Commissioner.

### **Paragraphs 7.108 and 7.139**

- 1.2 Paragraphs 7.108 and 7.139 of my evidence both refer to the establishment of a 'setback' (paragraph 7.108) or 'buffer' (paragraph 7.139) from wetland or ponds in the disposal area. For clarification, these paragraphs relate to the requirements of proposed Condition 4 - which require the creation of a 10 metre planted buffer between any permanent wetland or pond and any dripper line if dripper lines are located within 15 metres of any permanent wetland or pond.

### **Paragraph 7.117**

- 1.3 With respect to my evidence at paragraph 7.117, based on the evidence of Mr Ellwood's there will be three groundwater monitoring sites. Based on the evidence of Dr Goldsmith there are eight surface water monitoring sites. However, as Dr Goldsmith has presented further evidence that monitoring at the pond (SW6) will not provide any useful information I have removed this site from conditions relating to surface water monitoring and the total number of surface water monitoring sites will be seven if this approach is adopted. The amended conditions reflect this approach and an updated plan with proposed monitoring sites is included as Map 1 to the conditions.

### **Paragraph 7.128**

- 1.4 In the first sentence of paragraph 7.128 replace 'even' with 'event'.

### **Paragraph 7.160**

- 1.5 The fourth sentence of paragraph 7.160 should be amended to replace the word 'we' with the work 'I'.

### **Paragraph 13.49**

- 1.6 The third sentence of paragraph 13.49 should be amended to delete the word 'include'.

### **Paragraph 13.50**

- 1.7 The third sentence of paragraph 13.50 should be amended to replace the word 'we' with the work 'I'.

**Ralph Robert Henderson**

**24 January 2022**
