My/Our submission is *(include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views)*.

I strongly oppose this submission. I spend a lot of time on this stretch of the river with my family, walking my dog, biking, running and rafting, swimming and generally enjoying the peace, quiet and beauty of the upper Clutha and our backyard. I really believe it's one of our most valuable and underrated local resources. The idea of a dredge chugging along and turning over the bottom of the river for the next decade or so seems short-sighted and unappealing

I seek the following decision from the consent authority (*give precise details, including the general nature of any conditions sought*)

I would like this proposal to be declined.

I:

Not wish to be heard in support of our/my submission

If others make a similar submission, I/we will consider presenting a joint case with them at a hearing.

**If trade competitor chosen, please complete the next statement, otherwise leave blank.*

I **do/do not** request* that the local authority delegates its functions, powers, and duties to hear and decide the application to 1 or more hearings commissioners who are not members of the local authority.

I **have not** served a copy of my submission on the applicant.

Attached is my personal submission to Oppose the Cold Gold clutha dredge from Luggatte bridge down to the Dunstan. I am also opposing this submission on behalf of my company Paddle Wanaka LTD.

I spend a lot of time with my family on this stretch of river. Walking my dog, biking, running and rafting, swimming, kayaking and generally enjoying the peace, quiet and beauty of the Upper Clutha and our backyard.

I wholeheartedly believe it's one of our most valuable and underrated local resources. The idea of a dredge chugging along and turning over the bottom of the river for the next decade or so seems short-sighted and unappealing.

I also own Paddle Wanaka who has consent to operate on this part of the river. Although the effect of the dredge physically might not be a constant barrier for most of my clients. I believe an eye sore and a progressive step back in nurturing our breathtaking environment. Of which we strive to nurture for our children to enjoy. With the hope it sustains its purity for future generations to be proud of and nurture for years to come.
