My submission is

We are an adventurous bike loving family who would love to see a cycle path from Te Anau out to Sinclair Road. We often bike in and out of Te Anau with our children on bikes or in cycle trailers but now the Milford Road is getting too busy for this so it is difficult to do this because of safety reasons.

Our children are 4,6, and 8 - ideally we would love for them to carry on biking in and out of school and activities as they grow older but without a cycle trail this is way too dangerous. We now have a bike park on Sinclair Rd - so even more reason to get this trail going - it is a popular park for all students of Fiordland College and locals alike so to see an off road path would be fantastic.

It would also be ideal to have a path out to Ramparts / Kakapo in the future for similar reasons.

To be able to encourage our children to bike to town would be fantastic!
