

Attachment 1 Explanation of Track Changes

Please note that the planner's evidence provides a copy of the draft conditions of consent with amendments made by both the ORC and the Applicant tracked through the document. The tracked changes show on our devices as red (ORC) and blue (Applicant). We are aware that the colour of the tracked changes may vary from computer to computer. We can advise that the first tracked change in the conditions document is the addition of the subheading "The Consents" on page 1. This change was tracked by the ORC – therefore the colour of this tracking is the colour of all tracked changes made by the ORC, and all tracking made in the other colour is the Applicant's tracking.
